Dongguk University provides a world-class education that bridges East and West on many levels. We welcome inquiries regarding admissions from students of all countries in the world.

DONGGUUK UNIVERSITY
Guide for International Students

Dongguk University provides a world-class education that bridges East and West on many levels. We welcome inquiries regarding admissions from students of all countries in the world.
A Beautiful University with Great Potential

Dongguk University is over one hundred years old, and it is located in Gyeongju, a city with over one thousand years of history. Gyeongju City is full of unique traditions and rich culture. The University is considered as a prestigious private institution, and it has one of the best reputations in South Korea. Dongguk University embraces globalization through various international educational programs and its high-tech infrastructure. Dongguk University - a beautiful university with great potential.
The Most Korean, The Most Competitive

Dongguk University Gyeongju Campus

Dongguk University Gyeongju Campus was established 104 years ago in the ancient capital of Korea, which is a UNESCO World Heritage city, with over 2,000 years of continuous history. Among the other universities in South Korea, Dongguk University is the only one which inherited the unique culture and historical traditions of Korea. Located in the crossroads of Korea’s biggest metropolitan cities, the university is developing a high-tech infrastructure and has a strongly competitive environment.

Dongguk University, a Prestigious Private Institution in South Korea.

Dongguk University is an impressively large university with campuses located in cities such as Gyeongju, Ilan, Los Angeles, and the capital city of Seoul. The university provides education to elite students and intellectuals as well as having cultivated various leaders of modern South Korea. Dongguk University was founded in 1906 and was strongly influenced by the traditions and the living culture of Silla Dynasty Buddhism. Dongguk University Gyeongju Campus is proud to have just celebrated its thirty-second anniversary.

Tradition, Science and a Global Human Resources Training Center

Gyeongju has been an organized urban center since the Silla Dynasty period, when it became the capital of ancient Korea from 57 to 935 AD. Even though more than two thousand years have passed since its establishment, the city has kept its mystique and culture. Indeed, Gyeongju City is a museum under the open sky. The city has a significant cultural heritage of Buddhist temples, historical ruins, stone pagodas, memorial halls, and more. This cultural and historical heritage are the pride of Gyeongju. Both the nearby Namiseom Mountains and the East Sea have largely contributed to Gyeongju’s beautiful natural environment.

Meanwhile, Gyeongju City is establishing a name for itself in the advanced sciences, for example the local construction of a proton-based accelerator project and the establishment of the locally-based Korean Hydro and Nuclear Power Corporation. Moreover, there are Gyeongju’s neighboring technology-rich cities: Dangg City, Korea’s textile center; Pohang City, with its world-leading Pohang Steel company (POSCO); Ulsan City, with its Hyundai Motor Company, and Busan, the second largest city in Korea. Having strong connections with the energy-environment fields and advanced technologies, Dongguk University Gyeongju Campus is a leader in international technology-based education and academic-industrial cooperation programs.

Global Human Resources Training Center

Dongguk University Gyeongju Campus embraces the thousand years of tradition from the Silla Dynasty, but it also benefits from access to the biggest cities of South Korea. This has helped the campus transform itself into a more competitive and global university. Having strong connections with energy-environment fields, advanced technologies, and training programs for world-class professional experts via various international education and academic-industrial cooperation programs, the University is doing its best to find the strategies to educate young, talented intellects. Learn Korean culture and traditions at the best Korean University: Dongguk University Gyeongju Campus.
Campus Infra

Customized Study Programs for International Students

Dongguk University Gyeongju Campus offers well developed cultural experience programs. Through these programs, international students benefit from experiencing the unique traditions and history of Korea. In order to ease the transition of international students, we have a well-developed, methodical system which assists students in different ways.

Institute of International Affairs and Education

The Institute of International Affairs and Education is the international business division of Dongguk University Gyeongju Campus. It is responsible for promoting the globalization of university education as well as assisting international students in settling into their lives at Dongguk University Gyeongju Campus.

Moreover, the Institute of International Affairs and Education is in charge of recruiting international students, with their various academic interests, to do their training and research at Dongguk University Gyeongju Campus. This includes training in the Korean language, as well as offering international undergraduate and graduate degrees. Students undertaking training in Korean language will also have the opportunity to take aptitude tests in order to assist in choosing the right career. Face to face career guidance is also an option for Dongguk University Gyeongju Campus students. http://iiae.dongguk.ac.kr

Scholarships for International Students

At Dongguk University, international students receive a 40 ~ 70 percent discount on tuition. Requirements for receiving a scholarship include fifteen or more credit hours and a GPA of 2.0. Scholarships will not be granted if the student drops a course and no longer meets the scholarship requirements.

Housing and Cultural Facilities

Dongguk University Gyeongju Campus has a modern, on campus dormitory. All necessary facilities are available for international students. This includes a hall, stationery store, lounge, fitness center, computer labs, study rooms, and cultural facilities.

Dormitories can accommodate about 1,500 people. Usually two or three persons use one room in a traditional corridor style with shared bathrooms. International students can also take advantage of the three meals offered per day. There is also a well-endowed library on campus, which has reading rooms with over 2,000 seats and approximately 600,000 books. There are also over 5,000 domestic and foreign publications.

International Lounge

The international lounge on campus is the place where Korean and international students can hold discussions in English and other foreign languages. It is equipped with various DVD audio-video programs so that students can participate in audio-video activities.

International Student Council

This organization was established in 2009 to help international students with their various needs. Another main operating sphere of the organization is the systematic management of international students through conducting informative workshops with them while also establishing a network of emergency contacts. The organization facilitates international students to adapt and study with enjoyment and minimal difficulties.
Methodical Curriculums, Educating of Multi-professional Individuals

Dongguk University Gyeongju Campus provides the best learning environment for students through its methodically constructed academic programs and the broadening of international perspectives. Through our systematically designed curriculums, we train multi-professional individuals according to all modern rules of globalization.

College of Buddhist Culture
Major of Buddhist Studies | Major of Buddhist Child Studies on Buddhism | Major of Seon (Zen) Studies | Major of Korean Traditional Music:

The College of Buddhist Culture is dedicated to the study and practice of Buddhism and cultivating a competent and complete character. We include majors of Buddhist Studies, Seon (Zen) Studies, Buddhist-Oriented Child Studies, and Korean Traditional Music. These Buddhist programs promote an ideal life, focused on the planet, its natural surroundings and on humanity. The Department of Buddhist-Oriented Child Studies places emphasis on fostering reports who will work in child education. The Department of Buddhist Traditional Music offers degrees in Korean Buddhist Music Studies and Traditional Art Culture.

The Dept. of Buddhist Studies is the flag-ship of Dongguk University Gyeongju. This degree program stresses the importance of understanding the teachings of the Buddha as well as understanding the true nature of the human condition. The academic goals in the Department of Buddhist Studies include understanding the ultimate truth of the world and the cultivation of the ideal human, the Bodhisattva, with the values of self-development, creativity, and meditation practice.

The Department of Seon Studies. The term ‘Seon’ comes from the Sanskrit word Dhyan. It is a study rooted in Buddhism, and as such it is a way of life. The aim of Seon studies is to make complete existential freedom, which is the birth-right of all beings. To live naturally and in complete harmony with ourselves is the heart of Seon practice and as such, Seon meditation is a good way to begin this study. Therefore, the educational aims of Seon Studies is to cultivate intellectually competent leaders who share with virtue and sensitively based on the teachings and history of Seon.

College of Humanities
Dept. of Korean Language and Literature | Major of Korean Language Written in Chinese Characters | Major of Philosophy Essays | Major of Korean History | Major of Archaeology and Arts History | Dept. of English Language and Literature | Dept. of Japanese Language and Literature | Dept. of Chinese Language and Literature | Dept. of Arts | Dept. of Social Athletics.

The College of Humanities at Dongguk University Gyeongju Campus is considered as the symbol of academic and the flower of the education. It includes as the study of English, Japanese and Chinese languages as well as art and social athletics. The College of Humanities does not only aim to enrich the spiritual life but also to foster physically healthy individuals.

The Dept. of Korean Language and Literature was inaugurated in 1979 when Dongguk University Gyeongju Campus was officially accredited as university. The department focuses on establishing a systematic and scientific research in Korean language and literature. The department has three areas: modern literature, classical literature, and Korean language. In modern literature, students gain knowledge of Korean literature through readings and analyses of literary works. In Korean classics, students learn to analyze and study literary works from ancient times of Korean literature. In Korean language, students are trained in Korean syntax, semantics, and pragmatics, etc.

Dept. of Social Athletics is committed to the quest for excellence and the personal development of student athletes as productive members of society, both academically and competitively. As a study of research, the department trains students to be physical education teacher or physical education director in local communities, while also contributing to the educational ideals of Dongguk University.
College of Science and Technology

The Division of Bio Science and Technology aims to train creative individuals who will also play a role in the development of advanced science and education. Therefore, the College of Science and Technology was first established in Republic of Korea to enhance development of technology infrastructure. The college intends to cover hot topics in Energy and Environment such as efficiency improvement of development of technology and products, train practical and professional manpower for industrialization.

The Division of Bio Science provides rigorous training in all areas of Life Science, Biotechnology, and Biomedical Science at the undergraduate level. As a part of high-tech fields toward the 21st century, the Division of Bio Science provides physics, chemistry, medical science, pharmacology, agriculture, environmental science, and food science. These fields are related to the life sciences, in the search for understanding their basic principles and life phenomena. The Shared Division facilities include a state-of-art laboratory and a research.

The Division of Information Communication Engineering provides interdisciplinary programs integrating the fields of information technology and communication. And thus we bring up technology application specialists for the communication field as to foster communication experts for the information technology and communication. And thus we bring up technology application specialists for the communication field as well as to foster communication experts for the information technology and communication field. The Division is preparing students for developing expertise within the field of telecommunications and information networks.

College of Energy and Environment

The Division of Energy Environment System

College of Energy and Environment was newly established in Republic of Korea to enhance development of technology infrastructure. The college intends to cover hot topics in Energy and Environment such as efficiency improvement of development of technology and products, train practical and professional manpower for industrialization.

The Division of Energy Environment System mainly focuses on energy independence, lower consumption of energy, and alternative energy development from petroleum in research area. Energy which is indispensable for industry and society in most cases needs to undergo some sort of conversion according to the intended purposes. Also, from the point of view of preservation of the global environment, innovative technology is called for. The Division provides undergraduate with a variety of programs to devote themselves to their studies. And in full control in-serviced education, technical training, and top program education for international sensibility. We are exploring researches and projects for developing of nuclear power, hydrogen energy, solar energy, a fuel cell, bio, wind power, and tidal power.

College of Social Science

The Department of Social Science serves in public administration, law, and policy analysis.

The Department of Social Science performs research and education in public administration, law, and policy analysis.

1. Laboratory Activities
2. Seminar Room Activities
3. Discussion Class
4. Class with Multimedia facilities

Major of Information and Management major focuses on practical economics, management, and policy analysis.

Major of Tourism and Leisure Administration major focuses on practical economics, management, and policy analysis.

Major of Hotel and Convention Management major focuses on practical economics, management, and policy analysis.
Zayamini first contacted Dongguk University six years ago. In 2004, the Medical Corps of Dongguk University arrived to Sri Lanka’s Gampaha Area, and Zayamini helped them to unfold their medical services. Dongguk Corps extended its help to her and since then, Zayamini has lived her dream to study in South Korea. Living in the beautiful city of Gyeongju, she resides in the student dormitory and pursues her studies. It has only been four months since her arrival, and she does not know the Korean language and culture very well yet. But her hospitable and friendly English-speaking Korean roommates are helping her to adapt and study with enjoyment and minimal difficulties and burdens.

Within a short period of time, she has made unforgettable memories at Dongguk University. She was particularly impressed with her experience in the calligraphy and Korean Buddhism classes. She was equally impressed with Gyeongju World, karaoke rooms, and Korean barbeque, or samgyeopsal. Upon completion of her Korean language courses, she is planning to enter the department of Social Welfare. This is because she wants to share the love and knowledge she obtained at Dongguk University with the socially unprotected and insufficiently supported citizens back home.

I Want to Share the Love and Knowledge Obtained at Dongguk University

Zayamini Korean Courses
Trio Unified by Basketball

Zhang Yuhao, Wu Di, and Shen Jiawei are from different regions of China, and they study in different departments. But at Dongguk University Gyeongju Campus, they are unified by basketball and forget their homesickness playing basketball together.

Zhang Yuhao, who studies in the department of Hotel and Tourism, came to know Dongguk University from his friend, who was studying at the university. His friend told him he was very pleased with the low fees and its nice facilities. But most of all, he was especially happy with the popularity of his department, Hotel and Tourism. Moreover, Zhang Yuhao makes a great effort to maintain Dongguk University’s image overseas by actively working as a public relations assistant.

Shen Jiawei came to Dongguk University in 2008, and he is currently in his second year in the department of Business Administration. His decision to join Dongguk University was motivated by several factors. He was particularly swayed by the fact he would have no more than fifteen credits per semester, and if his grades were above a C average, he would receive a scholarship from Dongguk University. Wu Di is in his first year in regular Korean courses. He likes fried chicken, and he enjoys watching Korean dramas. He is a big fan of the Korean bands ‘Bigbang’ and ‘Girl’s Generation’. Above all, Wu Di says he is very proud to study in Gyeongju because of its historical charm. Upon his completion, he will enter the department of Business Administration.

International Student Basketball Club was formed in order to make international students’ lives more enjoyable. It was established last fall and currently consists of fifteen Chinese international students. There is one training session a week, and sometimes there are friendly matches with Korean mates. Besides the basketball club, there is also a dance club which operates for international students.

It is More Joyful to Live Studying and Playing Basketball Together!

Division of Hotel, Tourism and Management, 1st grade

Wu Di
Division of Economics and Commerce, 1st grade

Shen Jiawei
Major of Management, 2nd grade
The Best Choice I Have Ever Made in My Life is Gyeonju and Dongguk University

Aziz Nasridinov
Doctoral Degree in Computer Science

The New Gyeongju Whenever I See It

One of the nicknames of Aziz is “Kim Bom.” Kim Bom is a movie star in Korea, and Aziz looks like him. He has already spent three years in Korea. He came to Dongguk University Gyeongju Campus in 2007 to pursue his Masters degree in Computer Science. Currently, he is a Doctoral student in the same department.

He came to know Dongguk University in the fall of 2006 while studying at Tashkent University of Information Technology. With a smile on his face, he remembers meeting his current academic advisor. They met at a conference in Tashkent, and at that time, he offered Aziz the opportunity to come to South Korea to study at Dongguk University Gyeongju Campus.

After a while, Aziz realized it was the best decision he had ever made because of the academic standards of Dongguk University Gyeongju Campus and the beauty and historical charm of Gyeongju City.

There are four different, beautiful seasons of Korea, the wonderful Gyeongju campus of Dongguk University, the well-equipped research facilities, and several other factors allow him to live comfortably in Gyeongju. He says it is very hard to find time to meet his friends because of his demanding doctoral courses. Whenever he is available, though, he likes to travel around the city. Even though he has visited many places in Gyeongju over his three years, he always discovers something new whenever he visits those places again.

Bomun Resort offers tourists various accommodations and facilities, and it is the pride of Gyeongju City. It gains tremendous interest from visitors with its spectacular scenes during the cherry blossom season in April. There are also amusement parks called Gyeongju World and California Beach within the Bomun Resort. During the weekend, you can take pleasure in witnessing a stunning view from Gyeongju Tower.

Anapchi pond was built approximately 1300 years ago. When King Munmu ruled the Silla Dynasty, Anapchi Pond was constructed as a form of Silla map. Anapchi is one of the most tourist-attraction places; therefore, people say, we always discover something new whenever we visit Anapchi again.
Dahyeon is a Friend and Protector of Hanae

Dahyeon and Hanae call themselves best friends. They think the cultural differences between Japan and Korea, language barriers, and the pains of the past don’t affect their friendship. It has been a year since they met, and while studying together, they have gotten to know each other deeply.

Specifically, Dahyeon and Hanae got to know each other when Dahyeon went to Japan last summer to enroll in short-term language training courses at Nayoro University in Hokkaido. At the same time, Hanae was a student in the department of Early Childhood Education. Later, Hanae came to Dongguk University Gyeongju Campus in February as an exchange student, and Dahyeon helped her to settle down through the Dongguk Friends Program.

Dahyeon greatly helped Hanae learn how to get around. During weekends, they would visit the historical sites of Gyeongju. They currently do medical service activities together. During this summer vacation, they are taking a trip to Jeju Island.

Sometimes Dahyeon even protects Hanae. Once, when Hanae suddenly got sick, Dahyeon took her to the hospital and took care of her. Hanae believes that with such a great friend, there is no threat for her. Rather, there is just a lot of fun.

Hanae’s dream is to become an elementary school teacher, and it seems Dahyeon will be long remembered by Hanae after she achieves her dream.

Dongguk Friends is a program to help international students settle down easily at Dongguk University. Mainly, it is a community of students who help international students smoothly adapt to campus life and easily attend lectures.

We are the Best Friends Beyond Borders

President Message

Dongguk University Gyeongju Campus has thirty-two years of history, while Dongguk University has a 104-year history. Students of our university are taught based on history and tradition, and those same students are currently working in different fields across our country and the world.

At Dongguk University Gyeongju Campus, international students can benefit especially from various fields of education and advanced science curriculums. Also, in order to live comfortably, international students are provided with excellently equipped accommodations, the best educational infrastructure, numerous courses for international students, and a scholarship program. We invite you to study at Dongguk University Gyeongju Campus and actively participate in the thousand-year-long history of Gyeongju and the hundred-year-long history of Dongguk University.

An ancient Korean proverb states that a victory without challenge is not enjoyable. So, if you want to study in the global era, and if you want to develop your global talents, we welcome you to Dongguk University. Dongguk University will do its best to make your dream come true.

President of Dongguk University Gyeongju Campus, Son Dong-jin

**Self-introduction**
Why You Have to Start at Dongguk University, Gyeongju Campus

Two Campuses! Two Competitors!
In Dongguk University Gyeongju Campus, students get opportunities to study in Gyeongju, the center of Korea Tourism, and in Seoul, the capital city of Korea at the same time. These programs are only available in Dongguk University Gyeongju Campus. Also, we provide insurance to all foreign students to learn in a safe environment.

Metropolitan Cities nearby Gyeongju. Work Advantages
Gyeongju benefits from its close proximity to Busan, the second-largest city in South Korea. It also benefits from Daegu, with its various textile companies; Ulsan with Hyundai Motor Company; and Pohang with world giant Pohang Steel Company (POSCO). The close proximity of these cities help to broaden knowledge of international students. After graduation, students will have job-hunting advantage in these cities.

Thank You Dongguk University!
This letter is personally written by exchange student from Uzbekistan, Choi Evgeniya.

I remember my first day at Dongguk University. I was very surprised by the beautiful buildings, clean atmosphere, and kind and professional teachers. Thanks to Dongguk University Gyeongju Campus, I learned a lot about Korean culture through Korean culture classes. Also, my teachers of Korean language courses were very qualified. They always used good teaching methods. All in all I am now sure of accomplishing my goal of becoming a Korean teacher. The education system of Dongguk University Gyeongju Campus is very effective.

June, 2010 Choi Evgeniya
